

Trends in Bioabsorbable Metals 2020
Where Science meets Technology and Clinics
August 24 and 25, 2020
Online, informative, affordable
A Virtual Symposium

<http://www.biodegradablemetals.org/>

Why not attend the virtual **Updates in Bioabsorbable Metals 2020?**

It represents a **unique** opportunity to learn about bioabsorbable metals and maybe enter this new multidisciplinary field.

Four blocks of three hours sessions will introduce you to this revolutionizing reality in biomaterials and regenerative medicine:

Mg, Zn, Fe- based bioabsorbable alloys
for orthopedic, dental, vascular implants
for scaffolding tissue regeneration

4 blocks, 3 hours each, 2 days

Speakers from academia, industry and clinics
Meet the worldwide academic and industrial experts in the field!
A lot of opportunity for discussion and exchanges

Take a look to the program [HERE](#)

Registration fees as low as 50 CDN\$
