

CBS 2022

37th Annual Meeting of the
Canadian Biomaterials Society

May 25-27th, Banff Center for Arts and Creativity, Banff, Alberta

Reuniting to Move Mountains: Developing Biomaterials for Clinical Use

Keynote Speakers

Jennifer H. Elisseeff, PhD
Professor and Director, Translational Tissue Engineering Centre,
Department of Biomedical Engineering and Wilmer Eye Institute,
Johns Hopkins School of Medicine.

William R. Wagner, PhD
Professor and Director, McGowan Institute for Regenerative Medicine,
Distinguished Professor of Surgery, Chemical Engineering, and Bioengineering,
University of Pittsburgh.

Eben Alsberg, PhD
Richard and Loan Hill Chair, Departments of Biomedical Engineering,
Mechanical & Industrial Engineering, Pharmacology and Regenerative Medicine,
and Orthopaedics. University of Illinois at Chicago. Fellow of AIMBE and BMES.

Session topics:

Drug Delivery
Stem Cell Therapies
Disease Modeling

Bone and Dental Applications
Medical Devices
Tissue Engineering

Immunotherapy
Bioprinting

Student Night and Conference Dinner: May 26th

Platinum: \$1500

Gold: \$1000

Silver: \$500

Platinum sponsorship includes booth registration for one person

All levels include advertisement in program, website, and on overheads at conference

Sponsored Session - \$2500

Co-lead a session on a special topic of interest
Costs cover: room, audio/video and coffee

Sponsored Coffee - \$1500

Advertised as sponsored beverage break
Costs cover: one coffee break
