CALL FOR PAPERS

A Special Issue

“Biomaterials, Tissue Engineering, and Regenerative Medicine Research In Canada”

GUEST EDITOR:

Kibret Mequanint, Department of Chemical and Biochemical Engineering & Graduate Program in Biomedical Engineering, The University of Western Ontario, Canada.

E-mail: kmequani@uwo.ca

Scope

It has been nine years since a "special issue" dedicated to the Canadian Biomaterials Research appeared in the Journal *Biomaterials*. In the last decade, Canada's biomaterials/tissue engineering research landscape has expanded rapidly. The aim of this special issue is to provide a forum for the publication of the most advanced progress of Biomaterials, Tissue Engineering, and Regenerative Medicine Research in Canada. These include original research papers, reviews, clinical case reports, and commentaries on the topics relevant to biomaterials, tissue engineering, and regenerative medicine.

Research Topics Covered

- Natural and synthetic biomaterials synthesis
- Cell-fate regulation using biomaterials
- Biomolecule/drug delivery in tissue engineering and regenerative medicine
- Biomaterial-based medical devices

Manuscript Submission

Manuscripts must be prepared according to Journal's guidelines available at <http://www.aspbs.com/jbt>. Submit your manuscripts to the Guest Editor by email at

kmequani@uwo.ca. Please ensure that the submitted manuscript is new, original and has not been published previously or is not currently submitted for review to any other journal or conference proceedings or elsewhere.

Deadlines

Manuscript Due: **June 01, 2014**

Publication Date: **August 2014**
