

World Biomaterials Congress 2016 Legacy Fund – Post-Doctoral Experience Award Application

Applicant's Name:

Home University:

Program of Study:

Supervisor's Name:

Proposed Host Institution(s) and P.I.(s):

Years of Membership in the Canadian Biomaterials Society:

1. Detail your proposed location for your exchange along with rationale for the visit and how it will advance your research project. Please include what will be accomplished during the travel (which labs will be visited, for how long, if you will meet professors and students, if you will give a lecture and/or learn a new technique, if it will result in a collaboration between the home and visiting lab supervisors, etc.) (2 pages maximum)

2. Please discuss your involvement in the Canadian Biomaterials Society, including student chapter activities and future plans for activities if applicable. (300 words maximum)

Please submit an up to date C.V. including a list of your publications, presentations, and abstracts, along with this application form and a cover letter in which you must explicitly state that you will provide the CBS with a 1-2 page report on your travel experience during the tenure of the award as well as potentially give a talk on your experience at the following Canadian Biomaterials Society Annual meeting. Please have your supervisor and your proposed host P.I. send letters of support to the awards committee. Your application will be reviewed by the Canadian Biomaterials Society awards committee who will select the winners based on the following percentages – 50% quality of candidate based on C.V., 40% quality of the proposed travel plan, and 10% based on service and planned service to the Canadian Biomaterials Society.
